| 3. Ownership List; radius map (assessor parcel page); and stamped, addressed #10 business envelopes (no metered mail). |
| 4. A letter or a note on the tentative map stating that all parties having a beneficiary interest in the property being subdivided are aware of and consent to the filing of the tentative parcel map. |
TENTATIVE PARCEL MAPS

For any project requiring discretionary review it is strongly encouraged that applicants submit an electronic copy of the preliminary project proposal and application information for review by our County team ahead of submittal. Pre-file meetings with the Subdivision and Planning Application Review Committee (SPARC) are also available as part of our customer service and preliminary review of project proposals. All submittal information is to be provided in electronic format (word and/or pdf) and sent directly to our Planning team at planning@ocpw.ocgov.com. If your submittal exceeds 15MB in size, please utilize our file transfer site (ftp) located at the following link: https://ftp.eft.ocgov.com. The ftp site username is devsvcs-guest and password is DevSvcsDocs, and the target folder is /OCPW/Dev_Svcs. Please note passwords are case sensitive.

Planners are also available in our Development Processing Center (DPC) to assist you. The DPC is located at 300 N. Flower Street, Santa Ana. Operating hours are Monday through Friday 8:00 a.m. to 4:00 p.m. Please send email to planning@ocpw.ocgov.com or contact OC Development Services at (714) 667-8888 to schedule a pre-filing meeting or schedule an appointment to discuss specific issues that may apply to your project.

The following information supplements the Planning Application form to facilitate processing of tentative parcel map (TPM) applications.

Your cooperation with these instructions will insure that your application can be processed in the most expeditious manner possible.

Application for a TPM requires preparation of a map illustrating (attachment) the proposal and surrounding existing conditions, and submittal of additional information about the project to permit a complete evaluation of the proposal.

FORMS

1. PLANNING APPLICATION FOR TENTATIVE PARCEL MAP AND ENVIRONMENTAL INITIAL STUDY.

This is the official application for the TPM and Initial Study. Please see “Planning Application Filing Instructions” for completing this form.

A TPM is considered a “project” by the California Environmental Quality Act of 1970. Therefore, an assessment of the possible environmental impact of the project must be made. This Planning Application form must be completed to supply the necessary information so that an environmental determination can be made. THERE IS A DEPOSIT FOR THE ENVIRONMENTAL PROCESSING.

2. TENTATIVE PARCEL MAP FORM

The required map should be drawn on this form contained in the supplemental package unless the project is so large or so complex that all of the required information cannot be drawn in a clear and readable manner. If a separate sheet is used for the map, this form must still be submitted. Print “SEE ATTACHED MAP” in the space provided for the drawing and complete the section labeled: “Map prepared by:”
The map must include the following information:

- The location of the project site in relation to existing streets and the distance to the nearest cross street (must be detailed enough to allow someone not familiar with the area to locate the project site).
- The existing and proposed parcel layout. Dimension all lines. Use a heavy solid line for the project boundary, solid lines for proposed property lines, and dashed lines for existing property lines.
- A number for each parcel (Parcel 1, Parcel 2, etc) and the net area of each parcel (Net area equals the gross area minus any easements that restrict the surface use of the property, such as vehicular, pedestrian, or equestrian easements).
- The location and width of all existing or proposed easements or rights–of-way, whether public or private, for roads, drainage, or proposed and indicate to whom the easement is granted.
- The type and location of existing and proposed street improvements to centerline of adjacent streets (fully dimensioned).
- The proposed use of all parcels.
- The location of any above ground or underground structures on the site and indication if they will be removed or will remain. Dimension distances to proposed property lines on structures to remain.
- The proposed method of storm drain disposal.
- The location of all areas subject to inundation or flood hazard and the locations, width, and direction of flow of all water courses and flood control channels.
- The location of any excavations on the site or within 200 feet of any portion of the site.
- If the map was prepared by an engineering firm, the engineer’s stamp and signature must be on the map.

3. STATEMENT OF APPLICANT

Complete this form as completely and accurately as possible. Missing or incorrect information will only serve to delay your application. If certain lines do not apply to your project, print “NOT APPLICABLE” in the space provided.

4. & 5. WATER AND SEWER LETTERS

Have the water supplier and the sewer agency serving your project complete the forms and return them to you.
6. MAP FOLDING INSTRUCTIONS

If a sheet larger than 8-1/2” x 14” is used to prepare the required map please fold the map as shown (see attached diagram).

PROCEDURES

1. ALL TPM’S MUST BE SUBMITTED FOR PRELIMINARY REVIEW AT THE INITIAL STAGE OF PROCESSING.

   A deposit of 5,000.00 for map processing and a deposit of $3,500.00 for environmental processing will be collected for TPM’S submitted for screen check.

   Submit one copy of the map drawn on the form provided. If the map is on a separate sheet, submit 3 copies folded in accordance with the “Map Folding Instructions.” Complete forms described in items 2 through 5 above, and submit the original of these items. The map and supplemental information will be sent to those County departments whose representative make up the Orange County Subdivision Committee. The staffs of these departments will evaluate the proposal and should return comments to the Subdivision Section of Land Use Planning within fifteen (15) working days. These comments are then assembled and forwarded to you. The comments may include mandatory changes to the map or forms suggested changes to improve the project, and possible conditions that may be placed on approved TPM.

   Also at this time, the TPM application is checked to insure compliance with the Orange County General Plan, the adopted zoning on the site, the Subdivision Code, and other laws and ordinances that may affect the proposal. If any conflict arises between the proposed TPM and the General Plan, the zoning, or other laws, the conflict must be resolved prior to acceptance of any proposal for filing.

2. ENVIRONMENTAL DETERMINATION

   Concurrent with the submittal of the preliminary review material, that information required by the Initial Study (Item 1 above) will be forwarded to the Environmental Planner.

3. OFFICIAL FILING

   After the required corrections and/or additions have been made to the map and forms, and either (a) a Negative Declaration has been posted, or (b) fifteen (15) days have elapsed since the date that a Draft Environmental Impact Report has been accepted, the application may be submitted for official filing.

   A deposit of $5,000.00 will be collected for TPMs submitted for official filing.

   If the maps is on a separate sheet other than the 8-1/2” x 11” form supplied, submit 35 copies of the TPM folded in accordance with the “Map Folding Instructions.”

   In the filing process for tentative parcel maps, all owners of property within 300’ of the exterior boundary of the subject site will be notified of the public meeting. To meet the requirements for notification, the following will be required:
Supplemental Information

a. Ownership list
   1) A typed list of all owners of property within 300’, including owners of the subject property, their addresses with zip codes, and assessor parcel numbers, as shown on the latest County tax rolls.
   2) You must certify to the accuracy and completeness of the list by your signature.

b. Map
   1) Assessor parcel map showing all properties within 300’ of the exterior boundaries of the subject site.
   2) You may obtain the information necessary to complete the ownership list and map from the Assessor’s Office, 623 N. Ross Street, Santa Ana. A private firm such as a title company will assemble the required information for a fee.

c. Envelopes
   1) The name and address including zip code shall be typed (or pasted) on legal (4” x 9”) size envelope with first class postage for each property owner on the list. DO NOT USE A POSTAGE METER. The parcel number may be included for convenience.
   2) You must certify to the accuracy and completeness of the list by your signature. An incomplete list discovered after a project is approved may negate such approval.
   3) Return address will be stamped on envelope by the Agency. Do not use envelopes with personal or business return address.

4. SUBDIVISION COMMITTEE
   Within 50 days of the official filing being deemed complete the Orange County Subdivision Committee will discuss the proposed tentative parcel map. You will be informed of the date, place and time of the Subdivision Committee meeting on your proposal. YOU OR YOUR AGENT ARE REQUIRED TO ATTEND THE MEETING. The committee may approve or disapprove the project, or with the consent of the applicant, continue the application to a later meeting.

5. FINAL TRACT MAP
   The parcels shown on an approved tentative parcel map are not legal lots until a final parcel map, in substantial compliance with the approved tentative parcel map, is prepared and recorded. The County Surveyor’s Office processes all final parcel maps.
6. EXTENSION OF TIME

Within three (3) years after the date of approval of the tentative map, a final tract map may be recorded. Approving action on a tentative map becomes null and void unless a final map is recorded within this period.

An extension of time in which to record a final map for a period of time not to exceed two (2) years may be granted by the Director of OC Public Works, provided an application for the extension of time is made by the subdivider prior to the expiration date of the initial three (3) year period.

Attachments: Water Letter, Sewer Letter, Tentative Parcel Map Form, Statement of Applicant, Map Folding Instructions
Proposed Domestic Water Supply Statement of Certification

This minimum information shall be furnished when filing any Proposed Tentative Parcel Map in accordance with the Orange County Subdivision Code, Section 7-9-244.

Property Location  ____________________________________________________________

Name of Water Supplier: ______________________________________________________

**Status of State permit to supply domestic water:** (Section 4010 to 4025, California Health and Safety Code)

### CERTIFICATION

I acknowledge that:

1. There are no assurances at any time, implicitly or otherwise, regarding final staff recommendations to the decision making body about this application.
2. Major changes of the proposed project may require a new application and payment of new fees.
3. The County will charge the actual cost of the staff work on the application per the current Fee Ordinance. The costs of processing the application will be deducted from the deposit. If the deposit is reduced to a point that is insufficient to complete the future work, you will be notified to deposit additional amounts.

I hereby certify to the best of my knowledge that the information I have presented on this form and attached materials is true and correct. I also understand that additional data and information may be required prior to final action on this application. I have read and understand the contents contained in the above statements 1 through 3.

INSTRUCTIONS FOR APPLICANTS

This packet contains information to assist you in providing the basic information necessary for staff to evaluate the environmental impacts of your project. It contains three parts; a cover sheet, which provides an overview of the process and a description of possible environmental determinations for your project; instructions for completion of an Environmental Information Form; and the Environmental Information Form itself.

Complete and accurate information on your Environmental Information Form submittal will enable staff to process your project efficiently. If you need assistance, please contact Land Use Planning/Environmental Services at (714) 667-8888.

The Environmental Information Form:

The Environmental Information Form and supporting documentation provides the basic information necessary for the evaluation of your proposed project to determine its potential environmental effects. This information will be used to complete an Initial Study. Depending on the type and nature of your project, staff may request additional information/data beyond what is requested in the Environmental Information Form.

Environmental Determination:

After review of the information by Land Use Planning Division (LUPD), a determination will be made regarding the appropriate environmental documentation for your project. The determination will fall into one of three categories:

1. If the project is found exempt from CEQA, a Notice of Exemption will be prepared by EPSD staff. The notice will be returned to the County lead division along with the environmental determination memo. The Notice of Exemption will be filed by the lead division after the project has been approved in order to establish the statute of limitations for legal challenges.

2. If the project is not exempt but no significant environmental effects are anticipated, or if impacts can be mitigated or avoided by a change in project design or operation, a Negative Declaration will be prepared and posted.

3. If there is substantial evidence that any aspect of the project may cause a significant effect on the environment, the Planning and Development Services Department will prepare an EIR, or use a previously prepared EIR (if it adequately addresses the current project).

Submittal of Environmental Information Form and Supporting Documentation:

Environmental Information for public projects should be submitted directly to the:

Development Processing Center
300 N. Flower Street, Room 122,
Santa Ana, CA 92703
Instructions for Completing
The Environmental Information Form

In addition to the items listed above, the following additional exhibits must be provided based on the project types listed.

a. Private-Initiated General Plan Amendments/Zone Changes/Specific Plans (site specific)

   • Existing General Plan/Zoning maps for site and surrounding area.
   • Existing Land Use Map for site and surrounding area.
   • Proposed General Plan/Zoning maps for site and surrounding area.
   • Existing and proposed topographic maps of project area.
   • The following special studies as applicable: Traffic Report, Geotechnical report, Grading plans, Hydrologic study, Biological Study, Noise Study.
   • Text of proposed revisions to regulations using underline and strike through notation to indicate additions and deletions.

b. Site Development Permits/Use Permits/Coastal Development Permits/Area Plans

   • Existing, approved and proposed surrounding land use maps.
   • Traffic study (if applicable).
   • Geotechnical report (if applicable).
   • Grading plan (if applicable).
   • Hydrologic study (if applicable).
   • Biological Study (for projects in Coto de Caza and other sites within the Central Coastal and Southern Sub-Region Natural Community Conservation Plan areas whenever applicable).

c. Other Projects: If a proposed project does not fall into the categories listed above, consult with Environmental Planning Services Division staff (714) 667-8888 to determine appropriate supplemental documents.

   Other technical information such as archaeological, paleontological, or biological surveys; foundation/soil reports; percolation test reports; noise studies or traffic analyses may be necessary in some cases. If such reports are needed in order to complete the CEQA documentation, you will be notified by Environmental Planning Services Division Project Manager. If any such reports have already been prepared, please include copies with your submittal.

6. PREVIOUS COUNTY ACTION(S) AND/OR ENVIRONMENTAL DOCUMENTATION

   Please list any previous actions relative to the property and any previous environmental documentation covering the project.

7. GOVERNMENT APPROVAL(S) REQUIRED

   Please indicate other approvals now or in the future that will be necessary to implement your project (e.g., Planning Commission, Board of Supervisors, Army Corps of Engineers). If federal of state funds are involved in the project indicate the funding source. If a General Plan consistency (65402) determination from any non-County agency is necessary, indicate which agency or city is involved. If state approval of any phase of the project is necessary please explain.

8. CONTACT PERSON(S)
Instructions for Completing
The Environmental Information Form

Please give the name, telephone number, e-mail address, of the person most knowledgeable about the proposed project.

ADDITIONAL INFORMATION FOR SPECIAL PROJECTS

A. Construction and/or Development Projects, identify:
   1. Grading quantities cut and fill yardage, slope height and ratio.
   2. Alterations to natural drainage patterns that may occur.
   3. Erosion control methods that may be used.
   4. Whether clearing or vegetation control, or use of herbicides, defoliants, bulldozing, burning, or cutting will be required.
   5. Trees or other significant vegetation that may be removed by type, size, and quantity.
   6. Measures to be utilized to control dust.
   7. Any noisy construction methods that may be used (e.g., pile drivers, jackhammers, or blasting).
   8. Measures that will be used to minimize vehicular and pedestrian traffic disruption and project the public from construction hazards.
   9. Landscaping, if any, that will be provided.
   10. Measures that will buffer adjacent land uses from adverse impacts.

B. Acquisition projects, please identify:
   1. Any property that may be condemned or persons relocated as a result of the project.
   2. Ultimate use of the site.
