Good morning,

I live near this vacant lot, and although I believe the upcoming meeting is in regards to storage sheds on the lot, I'd like to note that residents are no longer permitted to use that lot for overflow parking. In your agenda notes it says "The lot also provides a limited amount of off-street parking for service vehicles and **community residents**." years ago we were allowed to use it and I'd like to know if there's a way that we can get that back. It's chained off and is basically unused. It's frustrating to be forced to park on our narrow streets when we have a perfectly good space to allow for safe parking. There is literally no spaces provided in the village for overnight guests to park. I, unfortunately, have kids who drive and not a huge driveway so I cannot provide a space for overnight guests. They just get the tickets & we have to juggle cars if they want to stay more than one day. I've lived here over 20 years and they took our lot away several years ago without any community say. Anyway, I don't care about the sheds. I do care about getting our parking lot back so community residents can use it like you stated.

Thank you,

Michele Zapotny
