Subject: Support for BESS Ordinance CA 24-03

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Engie North America has reviewed the proposed zoning ordinance for Battery Energy Storage System Facilities in Orange County, and we are pleased to provide this letter to the Planning Commission in support of these regulations. Please see the attached letter detailing our endorsement of the provisions of this ordinance --which we believe are consistent with best practices for these facilities. We are available to offer the perspective of developer of renewable energy and energy storage facilities as may be helpful to the Commission.

Sincerely, yours,

Renée Louise Robin, J.D.

Director, Permitting and Planning

Renewable and Flex Generation
