**Attention:** This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Ms. Duggan,

My name is Steve Scully, and I am a homeowner in Cameo Shores, where my family and I have lived for more than 14 years. I am writing to express my strong support for the proposed installation of the two AT&T and Verizon cell towers to be installed on the Pelican Hill golf course and as referenced in the recent community flyer.

Our neighborhood has effectively no usable cell service, which creates daily challenges—from basic communication to safety-related concerns when cellular connectivity is needed most. For more than a decade, we have been unable to reliably use our phones in or around our home. This is not consistent with the level of connectivity enjoyed throughout the rest of Newport Beach, Orange County, or the state.

It is time for our community to have access to modern, dependable cellular coverage, and these proposed towers are essential to achieving that goal. I respectfully encourage the County to allow these installations to proceed so residents can finally receive the reliable service that virtually all other communities consider standard infrastructure.

Thank you for your time and for your work on this matter.

Sincerely,

--

Stephen Scully
