

A RESOLUTION OF THE BOARD OF SUPERVISORS  
OF COUNTY OF ORANGE, CALIFORNIA  
July 14, 2020

WHEREAS, on March 22, 1994 this Board approved Resolution 94-300 establishing fees for encroachment on County property; and

WHEREAS, on March 30, 2010, this Board approved Ordinance 10-008 adopting the fee schedule for Building and Safety, Planning, Subdivision, and Grading; and

WHEREAS, on March 15, 2015, the Board approved Ordinance 15-005, rescinding Ordinance 10-008; and

WHEREAS, on March 15, 2015, this Board approved Resolution 15-017 adopting the fee schedule for Building and Safety, Planning, Subdivision, and Grading; and

WHEREAS, the OC Public Works Department is proposing to update its Schedule of Fees for Development Services, including all fees categories included in Resolution 94-300, Ordinance 10-008, and Resolution 15-017; and

WHEREAS, there are a number of services provided by OC Public Works in processing applications for the development of property in the County that are of primary benefit to the applicant; and

WHEREAS, pursuant to County policy the cost of these services should be borne primarily by the applicant receiving benefit from such services and so as to insure timely and effective processing of the applications; and

WHEREAS, OC Public Works can charge for the actual costs of these services provided to the applicants; and

WHEREAS, Board of Supervisors has conducted a duly notice public hearing on July 14, 2020 to consider the proposed fee modifications.

NOW, THEREFORE, be it resolved that this Board does hereby:

1. Find that the adoption of the Resolution approving the proposed fee schedule is Statutorily Exempt from the provisions of CEQA pursuant to Public Resources Code Section 21080 (b)(8) and Section 15273(a)(1) and (a)(2) of the CEQA Guidelines as the establishment or modification of rates, fees, and charges which are for the purpose of meeting operating expenses, including employee wage rates and fringe benefits and purchasing or leasing supplies, equipment, or materials.
2. Find that these fees meet the requirements set forth in subdivision (e)(2), (e)(3), or (e)(5), as applicable, of Section 1 Article XIII C of the California Constitution, and are therefore exempt from the definition of a tax as used therein.
3. Find that the revenue resulting from the fees established pursuant to this resolution will not exceed the estimated reasonable costs to provide the services and that the costs of providing these services are reasonably allocated among the fees established hereby.

BE IT FURTHER RESOLVED that the OC Public Works Development Services fee schedule includes a fee category of time and materials. For time and material charges, applicants will be charged by the hour, or

A RESOLUTION OF THE BOARD OF SUPERVISORS  
OF COUNTY OF ORANGE, CALIFORNIA  
July 14, 2020

fraction thereof, for the classifications performing the services at the rates set forth in Exhibit 1 hereto, which include a 3.6 multiplier to the base salary for full cost recovery.

BE IT FURTHER RESOLVED that effective September 14, 2020 this Board hereby establishes the 2020-2023 OC Public Works Development Services fees as shown in Exhibit 2, and hereby rescinds Resolution No. 15-017.

## Exhibit 2

**General Provisions****Fee Schedule Authorization**

The Development Services Fee Schedule was approved by the Board of Supervisors on July 14, 2020 by adoption of Resolution 20-089 (Item No 20). Resolution 20-089, effective September 14, 2020, includes the approved hourly rates and provisions for annual fee increases. Fee increases are based on the County fiscal year (FY) starting July 1<sup>st</sup>.

**Fee types**

The Development Services Fee Schedule includes three fee types: 1) flat fees; 2) valuation-based fees; and 3) Time and Material (T&M) charges based upon actual cost of staff or consultant time, including staff time associated with administering a contract. Hourly charges for T&M fees are based upon the hourly rates, including overhead multiplier, adopted by the Board of Supervisors.

**Standard charges**

Applications and permits will be charged the following:

- Issuance charge of \$30 for all permits

**Financially Responsible Party**

The "Financially Responsible Party" (FRP) is the individual or entity identified as financially responsible for the application and/or permit. All permits and applications must identify the Financially Responsible Party upon initial submission or prior to the time of payment or the first deposit. All Additional Deposit Request Notifications, refunds, permits, or other official documents and/or communications will be issued to the Financially Responsible Party. The individual or entity identified will be sent a notice that the individual or entity has been named as the Financially Responsible Party and will have 10 days to object or appeal fees and charges. In the event of a change of Financially Responsible Party on an application or permit, the newly identified Financially Responsible Party must appear in person or will be sent a notice that the individual or entity has been named as the Financially Responsible Party and will have 10 days to appeal.

**Permittee**

Individual or entity to whom an permit is issued and is responsible for adherence to and/or compliance with all permit conditions, regulations, and provisions. The Permittee may or may not also be the 'Financially Responsible Party'.

**Deposits**

For T&M charges, a deposit is required at the time that applications are submitted. If charges exceed the initial deposit, the Financially Responsible Party will receive an Additional Deposit Request Notification asking that the Financially Responsible Party deposit additional monies sufficient to complete the service required. Failure to comply with the request in a timely manner can result in suspension of activity on the application and/or permit. If a deposit balance remains at the completion of service, it will be returned to the Financially Responsible Party within 60 days from the date the application has been approved or the permit has been closed.

The Building Official or designee may authorize a revised initial deposit amount, based on the complexity of the proposed project. Revised deposit amounts are to be authorized on a case by case bases only.

**Overtime**

For all time and materials charges, overtime shall be available upon the Building Official or designee's authorization and Financially Responsible Party approval only. . Overtime shall be calculated as 1.5 times the base hourly rate of the classification performing the services, plus a 3.6 multiplier.

**Exhibit 2**

Overtime may also be requested by a Financially Responsible Party to accelerate completion of an application which is subject to valuation fees or flat fees. The Financially Responsible Party with a project subject to a flat fee may request accelerated completion and will be subject to a base fee of the valuation-based or flat fee, in addition to time and materials (T&M) charges of the classification performing the accelerated review services.

A request for accelerated completion of a review must be submitted two weeks in advance to the Building Official or designee for consideration. If approved, the review period begins upon the initial payment of the T&M deposit. Accelerated reviews are to be completed within the timeframe agreed upon with the Building Official or designee. An accelerated review request excludes projects with executed reimbursement agreements ("RA").

**Reimbursement Agreements**

Projects with executed reimbursement agreements ("RA") with the County shall establish separate deposit accounts ("Trust Account(s)") with the County to facilitate County's recovery of costs and expenses incurred in reviewing, processing, and approval matters including, but not limited to, project design, area plans, infrastructure, engineering and development. All permits processed with a reimbursement agreement shall require initial deposits and shall be based on time and material (T&M) charges.

**Review of Charges**

For T&M charges, the Financially Responsible Party may request in writing a review of the County charges within 10 calendar days of either 1) receipt of the full accounting of the fees charged on a completed application or closed permit; or 2) upon receiving and complying with more than one request by the County for additional deposit monies on a single application or permit. The disputed charges must be paid in order for the appeal process to proceed. The charges will be refunded at the end of the appeal process if found to be in the Financially Responsible Party's favor. The Director of OC Public Works or designee (hereinafter "Hearing Officer") shall review the request within 10 working days of receiving the request. The Hearing Officer shall determine that the charges were or were not justified and may adjust the charges appropriately. The Hearing Officer shall notify the Financially Responsible Party by mail and/or email the decision within three working days of making the final decision. The decision of the Hearing Officer is final.

**Fee Waivers**

Fee waivers may be granted by the County Board of Supervisors pursuant to resolution. In addition, the Director of OC Public Works or designee may reduce or waive fees for a) emergencies related to natural or man-made disaster; and (b) for special circumstances related to a primary residence that has been determined to be uninhabitable and where the fee would cause extreme hardship.

**Non Sufficient Funds Check**

A penalty of \$25.00 shall be levied against all returned checks. Subsequent payment must be made with Cashier's Check or Credit/Debit Card.

**Refund of Fees**

The Director of OC Public Works or designee may authorize refund of a fee which was erroneously paid or collected. 80% of a plan review fee may be refunded when no plan review has been performed. 80% of a valuation-based building permit fee may be refunded when no inspection work has been performed. Application and issuance fees, assessed value fees (including, but limited to SB1473 Fund and AB1379 Fund), Strong Motion Instrumentation and Seismic Hazard Mapping Fee, and technology fees associated with work that has been performed are non-refundable.

All refunds require a written request filed by the original applicant not later than 180 days after the date of fee payment. Under no circumstances shall there be a refund of fees after the application or permit has expired.

## Exhibit 2

**Extensions**

The Building Official or designee may authorize a permit extension, subject to a permit extension fee. Permit expiration and extensions are authorized as identified per California Building Code requirements.

**Penalty fees for unpermitted work**

An applicant may be charged double the permit fee for work performed without a permit where such work involved any activity, including, but not limited to construction, grading, electrical, mechanical, or plumbing, that would have been required for safety, environmental, or other valid departmental purposes.

**State-Mandated Fees**

Any state-mandated fees identified subsequent to this fee resolution will be assessed per state guidelines.

**Interpretation of the Fee Schedule**

The Director of OC Public Works or designee shall determine the appropriate permit type for applications or permits not specifically listed in the Fee Schedule.

**Indemnity Agreement for Discretionary Land Use and Subdivision Projects**

On March 13, 2018, the Board of Supervisors approved an Indemnity Agreement to limit liability and protect the interests of the County of Orange on discretionary land use projects. The OC Public Works Director or designee will utilize this Indemnity Agreement for all new discretionary permits related to land use and subdivision as defined by the Zoning Code.

**Major and Minor Groups for County Encroachment Permits****Minor Group - Private, non-profit (Commercial/Non-commercial)**

Can be a private individual, student, or group, using the County ROW or property for exclusive, personal, non-commercial use. Commercial group using County ROW or property for exclusive non-commercial use or commercial group or private individual or group using County ROW or property to provide non-profit event in which no entrance fees are collected.

Types of activities include private birthday parties; family picnics, block parties, dog shows, mock medieval tournaments; company picnics; art festivals/shows; and religious celebrations; Filming, Holiday Lights - Individuals and/or Neighborhood Org/HOA (single street); Road Closures (single street).

No review or limited review is required outside of the County Encroachment Section.

**Major Group - Commercial, substantial processing**

Commercial group, using County ROW or property for exclusive or public event in which entrance fees may be collected, or where product or services are sold, promoted or advertised, or permits which require extensive review and/or processing time, regardless of which group the permittee would normally be classified under. Types of activities include car shows; beach contests, races (run, walk, ride); radio station remote; parades (no road closure involved); political rallies; fireworks displays; Filming; Holiday Lights - Neighborhood Org/HOA (multiple streets); Road Closures (multiple streets).

**County Encroachment Permits**

**Encroachment Permit Renewals:** Permit Renewals allow certain Encroachment permits, as defined in the fee schedule, that have been previously reviewed and approved by OCPW staff, to continue for a specified period of time (generally

Resolution No. 20-089, Item No. 20

OC Development Services Fees

Exhibit 2

one year). Once the original permit is issued, additional review is generally not required for permits eligible for renewals. Permits eligible for renewals may be renewed for up to a period of five years, after which a new permit must be applied for.

**Encroachment Permit Extensions:** Permit Extensions allow completion of work that has already commenced under an issued permit or the commencement of work under a permit which has been previously issued but has subsequently expired. The time frame for an extension is generally less than and corresponds to the length of time for which the original permit was issued (i.e. One month or less; one to six months; etc.)

**Revisions (Encroachment Permits):** A Revision is defined as any change in the scope of work or modification/change to a previously approved plan. Revisions require a separate application and submittal of plan and/or scope changes, as well as an additional fee deposit to perform the review.

**Building & Safety****Valuation-Based Fee Calculation**

Valuation-based fees are calculated using the valuation tables which follow. Table 1 is Building Valuation Data (BVD) developed by the International Code Council (ICC) to calculate the valuation of the project. The BVD table provides the “average” construction costs per square foot, which can be used in determining permit fees for a jurisdiction. This data table is not intended to be used as an estimating guide because the data only reflects average costs and is not representative of specific construction.

**Table 1- Square Foot Construction Costs from the International Code Council (ICC), <sup>(a, b, c)</sup>**

**Building Valuation Data - August 2019**

- a. Private Garages use Utility, miscellaneous
- b. For shell only buildings deduct 20 percent
- c. N/P. = not permitted
- d. Unfinished basements (Group R-3) = \$22.45 per sq. ft

**Valuation-Based Fee Calculation (continued)**

Once the project valuation has been determined based upon Table 1, valuation-based fees, such as the building permit, are determined by applying the project valuation to Table 2.

**Table 2 - Valuation - Based Fee Table**

Total Valuation	Valuation-Based Fee
\$1 - \$3,000	\$148
\$3,001 - \$25,000	\$148 for first \$3,000 plus \$30 for each additional \$1,000 or fraction thereof, to and including \$25,000
\$25,001 - \$50,000	\$812 for first \$25,000 plus \$21 for each additional \$1,000 or fraction thereof, to and including \$50,000
\$50,001 - \$100,000	\$1,344 for first \$50,000 plus \$16 for each additional \$1,000 or fraction thereof, to and including \$100,000
\$100,001 - \$500,000	\$2,130 for first \$100,000 plus \$14 for each additional \$1,000 or fraction thereof, to and including \$500,000
\$500,001 - \$1,000,000	\$7,844 for first \$500,000 plus \$11 for each additional \$1,000 or fraction thereof, to and including \$1,000,000
\$1,000,001 and over	\$12,325 for first \$1,000,000 plus \$4 for each additional \$1,000 or fraction thereof

## Exhibit 2

**Right-Of-Way Encroachment (inclusive of Flood Control District Property)**

An encroachment permit is required for all activity in the County right-of-way which may not later be accepted as a public improvement by the County. Examples of encroachments are installation of towers, plies, fences, street closures, or structures for private purposes. In addition, use of the right-of-way for a gathering such as a special event is an encroachment. An encroachment permit is not a property right; it authorizes the permittee to perform work and cannot be transferred.

**Temporary Use – up to six months**

Permit Type	Fee/Deposit FY 2020-21	Fee/Deposit FY 2021-22	Fee/Deposit FY 2022-23

## Exhibit 2

**Definitions****Construction Types**

All buildings are classified according to their construction type. Type I is least combustible and Type V is most combustible. The more combustible a building is and the more hazardous the use is, the more the maximum allowable area is limited. All construction types and use groups are allowed to have increased areas by using sprinklers.

**Type I - (IA or IB)**

Typically, these are concrete frame buildings made of noncombustible materials. All of the building elements (structural frame, bearing walls, floors and roofs) are fire resistance rated.

**Type II - (IIA or IIB)**

These buildings are constructed of noncombustible materials. Typically, these are masonry bearing walls structures with steel studs for walls and steel bar joists for floor and roof structures. IIA has fire rated building elements (structural frame, bearing walls, floors and roofs). IIB is the most common construction type for commercial buildings because the building elements are not required to be fire resistance rated but still must be non-combustible.

**Type III - (IIIA or IIIB)**

Type III construction is that type of construction in which the exterior walls are of noncombustible materials and the interior building elements are of any material permitted by the code (combustible or non-combustible). This is typical of buildings with masonry bearing walls and wood roofs or floors.

**Type IV - (IVA or IVB)**

This is Heavy Timber construction which is not common in California except perhaps in some worship facilities.

**Type V - (VA or VB)**

Type V construction is typically wood frame construction. VA requires fire rated assemblies for all building elements (structural frame, bearing walls, floors and roofs); this is often seen in older construction that predates sprinklers but still not commonly used. VB is very common because it does not require any fire rating. VB is typically used for single family dwellings and garages.
